

N TYPE

The award-winning Dubstep DJ / producer and label owner N-Type is without doubt one of the heavyweights in the scene. Voted Best Dubstep DJ in 2006 and 2007 with releases on labels such as Tempa, 3.5 Records and his own Terrain imprint you can always expect the freshest dubplates, biggest beats, bass lines and anthems in an N-Type set.

N-Type began his career presenting an underground chart show on Delight FM with DJ Walsh. He got the opportunity from giving a mix tape in to his local record shop Big Apple Records. John and Hacha liked the tape and it soon found itself in the hands of the management of Delight Fm. N-Type and Walsh made an impact and managed two drive time shows a week, back 2 back. As time went by Walsh left the station and N-Type later took on a weekend chart show as he established a solo career. He quickly established himself as the main Dubstep DJ/producer on Delight FM and did regular guest shows on many other London pirate stations and internet stations. His mix compilations were rinsed on radio, which helped him gain recognition and bookings all over England and abroad. His shows have always concentrated on good vibes and giving the best music and talent the recognition they deserve. He is always up to date with a wide selection of dubs from the finest producers. Eventually Delight fm closed down due to unexplained circumstances and N-Type moved on to Rinse Fm. Since then he has gained international recognition and currently presents a popular show on www.Rinse.fm every Sunday night 11-1am. He is now in the process of expanding his show with more interviews, guest mixes and collaborations pushing artists and their music to the fullest.

In 2005 he focused his attention on production with his first sell out Track "Square off" hitting record shops in 2005 on Southside Dubstars. He then had tracks signed other labels such as, Dubpolice, Tempa and 3.5 Records and is currently on his third release on his own label Terrain Records. His tunes have been gaining support from many Dj's and radio stations with regular airplay on Rinse Fm, BBC Radio 1 Breezeblock thanks to Mary Anne Hobbs and the Dubstep show on kiss 100fm thanks to DJ Hacha. N-Type is currently a resident at FWD>> & Dubpolice and has played at the mighty DMZ.

In 2006 Type was chosen by community of the Dubstepforum.com, to mix a compilation of beats created and sent in as a competition on the forum. The winning tracks were chosen by a board of judges and the mix was recorded live at kiss 100fm.

At Christmas 2006 the Dubstepforum awards started taking nominations, when the votes were counted N-Type won Best DJ and Best Radio Show 2006.

In 2007 N-Type was then given the opportunity by Ammunition and Tempa to mix the 5th installment of Dubstep Allstars 5. The mix was released in the summer and took the critics by storm! This was a sure sign of the growth of the music and the respect it was getting.

At Christmas 2007 the nominations started for the second Dubstep Forum awards. Then in late January the dubstep forum had its first awards night @ Herbal and N-Type was proud to receive... Best DJ 2007, Best Radio Show 2007 and CD of the Year 2007.
