

## Rory Phillips

Having spent the better part of a decade re-defining London nightlife alongside *Erol Alkan* at the infamously legendary *Trash+(R.I.P)* and brought mutant disco to East London with *Our Disco.* Rory Phillips has without a doubt, built a solid reputation for parties that innately carve their own path while packing out the dance floor.

Continuing the tradition, Rory's raucous headline slot at *Trash's* successor *Durrr,* and the joyful crate digging of the *SAY YES* party, perfectly showcased his diverse and ever evolving musical style.

These pedigrees of notably distinct parties have seen him draw crowds from all across Europe, Asia and the USA. Rory has played alongside the likes of *2ManyDJs*, *Optimo*, *The DFA*, and *Justice* in addition to recording a DJ session for the famous *John Peel Show*.

Most recently Rory has been concentrating on music production, having been hand-picked to produce remixes for the likes of *Of Montreal*, *The Gossip*, *Franz Ferdinand*, *Chromeo* and *Robyn*. Taking on occasional keyboard duties for *Whitey* and *Kleerup's* live shows, he is also currently working on releasing his own original material.
