

Radio Soulwax Takes Over US

The Radio Soulwax tour came and conquered the States over the last two weeks. Packing 800-1000+ venues in LA, SF, Philadelphia, Montreal, Toronto, NYC and more the Soulwax boys took their latest album, Nite Versions out of the DJ booth and onto the stage. And we're not kidding, when we say they seriously KILLED it! KILLED! The crowds were freaking out from beginning to end and our inboxes were filled with up daily with fans and friends saying they've never seen anything like it. Amazing.

"It was interesting to see these guys live - in a way, it was exactly what a group of DJ's and studio wiz's playing live should sound like. and that's a compliment. From the opening kick of "Teachers" to the high point of "Another Excuse," Soulwax kept the crowd wrapped up in spastic glory. Fun fun fun night."

"Dressed in skin-tight white, the four-piece put on one of the liveliest gigs that completely surpassed my expectations. I am loving their Nite Versions album, but never could have expected that it would work so amazing live. "NYLipps", "Another Excuse", and "Teachers" translated especially well in a live setting.... The crowd was dancing. The music was blasting. It was fantastic....."
